Report of the Fund Manager

According to the investment objective of the Finles Global Opportunities Fund (“the Fund”), the Fund can invest in a number of asset classes including equities (both listed and unlisted), fixed income and currencies. The Fund may invest in physical positions in these asset classes or may obtain exposure through derivative financial instruments (both exchange traded and over-the counter contracts). The Fund also may invest in short term money market instruments for cash management purposes or have cash on deposit.

During the fiscal year, the Fund established positions in five individual equities (Unilever, Reed Elsevier, Teston Finance, SBM Offshore and TNT Express). The investment thesis behind positions can vary but generally match one or more of the following characteristics: a catalyst or an event is expected, stable or growing earnings, stable or growing dividends combined with an interesting pay-out ratio.

During the fiscal year, two of the five individual equities were sold (Unilever and Reed Elsevier). As always certain factors such as poor earnings expectations and deviations from the indicated corporate strategy can cause the positions in the portfolio to be reconsidered. This was no different with Unilever and Reed Elsevier.

All investments are or were denominated in EUR, therefore there has been no impact from currency movements.

Notes to the financial statements

1. GENERAL INFORMATION

Finles Global Opportunities Fund B.V. (the "Fund") is structured as a private limited company (besloten vennootschap, B.V.) under Dutch law, and was established on 15 June 2012. The Fund is a non-listed open-ended collective investment scheme.

The Fund may invest in equities (both listed and unlisted), fixed income and currencies. The Fund may invest in physical positions in these asset classes or may obtain exposure through derivatives (both exchange traded and over-the counter ("OTC") contracts). The Fund may also invest in short term money market instruments for cash management purposes or hold cash on deposit. The Fund's objective is to create positive return for investors through capital appreciation as well as from income generated by the Fund's assets. It is expected that the Fund's core investment strategy will be taking long positions in equities.

The Fund's investment activities are managed by Finles N.V. (the "Fund Manager"), with the administration delegated to TMF FundAdministrators B.V. (the "Administrator").

The Fund Manager is subject to supervision by the AFM (Stichting Autoriteit Financiële Markten) and DNB (De Nederlandsche Bank N.V.). As the participations of the Fund have only been offered to qualified investors, the Fund Manager is subject to supervision from the AFM under the lightened regulatory regime.

The Fund commenced operations on 15 June 2012.

The Fund had no employees during the year ended 30 June 2013 and period ended 30 June 2012.

The financial statements have been authorised for issue by the Fund Manager on 05 September 2013.

Tax position

The Fund has claimed for status of a fiscal investment institution ("FBI"). This implies that the Fund is not subject to corporate income tax. Dividend distributions made by the Fund to its participants are in principle subject to 15% Dutch dividend withholding tax, which may be reduced or eliminated under relevant tax treaties and/or the European Union Parent-Subsidiary Directive.

Comparatives

The comparative figures are unaudited and reflect the period from inception on 15 June 2012 to 30 June 2012 and are therefore not entirely comparable to the current reporting year included in the financial statements.

Distribution Policy

The Fund, consistent with its status as an FBI, makes distributions from net income, less any re-investment reserve, within 8 months of each reporting date. These distributions will be made on a specified pre-determined date. The Fund may make distributions more frequently.

2. SIGNIFICANT ACCOUNTING PRINCIPLES AND POLICIES

Basis of preparation

The financial statements of the Fund have been prepared in accordance with reporting principles generally accepted in The Netherlands ("Dutch GAAP") and the statutory provisions concerning annual accounts contained in Part 9, Book 2 of the Dutch Civil Code.

The financial statements are prepared on a fair value basis for financial investments, except those for which a reliable measure of fair value is not available. Other financial assets and liabilities and non financial assets and liabilities are stated at historical cost.

Functional currency

The financial statements are presented in Euro ("EUR"), which is the Fund's functional currency.

Notes to the financial statements

2. SIGNIFICANT ACCOUNTING PRINCIPLES AND POLICIES (*CONTINUED*)

Recognition and measurement

An asset is recognised in the balance sheet when it is probable that future economic benefits of the asset will flow to the Fund and the amount of the asset can be reliably measured. A liability is recognised in the balance sheet when it is probable that an outflow of resources embodying economic benefits will result from the settlement of a present obligation and the amount at which the settlement will take place can be measured reliably.

Income is recognised in the income statement when an increase in future economic benefit related to an increase in an asset or decrease in a liability has arisen that can be measured reliably.

Expenses are recognised in the income statement when a decrease in future economic benefit related to a decrease in an asset or an increase in a liability has arisen that can be measured reliably.

Foreign exchange

Transactions and balances

Transactions in foreign currencies are translated at the rates of exchange prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the reporting date at the exchange rate at that date. Non-monetary items that are measured at fair value in a foreign currency shall be translated using the exchange rates from the date the fair value was determined.

Resulting exchange differences on the financial assets and financial liabilities at fair value through profit or loss in foreign currencies are recorded in the income statement. Realised and unrealised exchange differences on other assets and liabilities are also recorded in the income statement and disclosed within foreign currency translation.

Basis of valuation – Balance sheet

Financial investments which are listed on the stock exchange are valued at the official closing rate of the previous dealing day or, if no rating took place, at the average of the bid and ask rate of the previous business day of the value as determined by the Fund Manger.

Classification of participations

The participations of the Fund are classified as equity. These participations are recognised and measured at the redemption amount. Any distribution of equity is recognised through equity.

Receivables and prepayments

The value of accounts receivable and prepaid expenses will be deemed to be the full amount unless it is unlikely to be paid or received in full. Appropriate allowances for estimated irrecoverable amounts are recognised in the income statement when there is objective evidence that the asset is impaired.

Payables and accruals

Payables and accruals and deferred income are included at fair value.

Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to insignificant changes in value and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Principles for determining the result

The Fund recognises financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instrument. A regular way purchase and sale of investments is recognised using trade date accounting.

Gains and losses arising from changes in value of investments are recognised in the income statement as 'realised gains on investments' or 'unrealised losses on investments'.

Expenses are accounted for in the income statement on the accrual basis.

Bank charges	(449)	(119)
Custody fee	(66)	-
Other and general expenses	(1,595)	-
Total	<u>(627,652)</u>	<u>(20,119)</u>

The basis on which various costs are charged to the Fund are disclosed in detail in the Investment Memorandum. It is a Dutch regulatory requirement to disclose any differences between actual costs and the costs disclosed in the Investment Memorandum.

During the financial year ended 30 June 2013, all costs actually charged to the Fund were in accordance with the costs disclosed in the Investment Memorandum. During the year, the Fund also incurred costs such as custody fees of EUR 66, bank charges of EUR 449 and other general expenses of EUR 1,595 which are not detailed in the Investment Memorandum.

Total Expense ratio

The total expense ratio ("TER") is calculated by dividing the expenses, excluding interest charges and transactions costs, by the average NAV during the period. Expenses that are incurred when participants subscribe or redeem are also excluded, provided they are included in the subscription and redemption charges. The average NAV is calculated on the basis of the NAV of the Fund as at 30 June 2012, as at 30 September 2012, as at 31 December 2012, as at 31 March 2013 and as at 30 June 2013. The amounts as at 30 June 2012 and as at 30 June 2013 are each given a weight of 50%, when calculating the weighted average NAV.

For the year ended 30 June 2013, the TER ratio for the Fund is as follows:

Total expense ratio	2013 2.34%
---------------------	---------------

Turnover factor

For the year ended 2013, the turnover factor for the Fund is 13.64%. The turnover factor is calculated by adding total purchases and sales, subtracting total subscriptions plus total redemptions and dividing the total by the average NAV.

11. RELEVANT CONTRACTS

Fund Manager

Management agreement

Finles N.V. acts as the Fund Manager to the Fund. The Fund Manager is entitled to a management fee equal to 50 bps of AUM. This will be charged on a monthly basis, but calculated on a weekly basis with a minimum of EUR 20,000 per month. From the 1 July 2013, the minimum amounts charged increased to EUR 40,000 per month.

Details of management fees charged for the year/period are disclosed in the income statement.

Administration fee

The Fund has entered into an administration agreement with TMF FundAdministrators B.V. ("the Administrator"). The Administrator is entitled to a one-off payment of EUR 10,000 excluding VAT for services relating to the set-up of the Fund. The Administrator is also entitled to the following monthly fees which are calculated as follows and payable in arrears;

- | ▪ Notional Dividend | Basis points per month |
|-----------------------|------------------------|
| - Up to EUR 5 million | 10 |
| - Above EUR 5 million | 8 |
- A monthly fee of EUR 500 for the preparation of audited annual accounts and assistance with the audit process;

The administration fee will be subject to a minimum of EUR 3,500 per month and a maximum of EUR 8,000 per month.

Details of administration fees charged for the year/period are disclosed in the income statement.

Independent Auditor

The Fund appointed De Keijzer Nipius & Co Accountants B.V. as the Independent Auditor. For the year ended 30 June 2013, the Independent Auditor's remuneration amounts to EUR 10,450, excluding VAT.

Notes to the financial statements

12. RELATED PARTY TRANSACTIONS

Related party transactions are transfers of resources, services or obligations between related parties and the Fund, regardless of whether a price has been charged. Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

The Fund Manager is considered a related party.

The following transactions occurred between the Fund and the Fund Manager during the reporting period

Transactions and balances as at 30 June 2013

	Paid EUR	Balance EUR
Management fee	(303,275)	(82,885)

Transactions and balances as at 30 June 2012

13. FINANCIAL INVESTMENTS AND ASSOCIATED RISKS

The investment objective of the Fund is to create positive return for investors through capital appreciation as well as from income generated by the Fund assets. It is expected that the Fund's core investment strategy will be taking long positions in equities. The Fund may invest in equities (both listed and unlisted), fixed income and currencies. The Fund may invest in physical positions in these asset classes or may obtain exposure through derivatives (both exchange traded and over-the counter ("OTC") contracts). The Fund may also invest in short term money market instruments for cash management purposes or hold cash on deposit.

The Fund Manager is responsible for identifying and controlling risks and is ultimately responsible for the overall risk management approach within the Fund.

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, currency risk and interest rate risk), credit risk and liquidity risk.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument fluctuates as a result of changes in market prices whether those changes are caused by factors specific to the individual security or its issuer or factors affecting all securities traded in the market. Market risk comprises market price risk, currency risk and interest rate risk.

Market price risk

Price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

Price risk arises on the Fund's investments in equities which are held as at 30 June 2013.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As at the reporting date, the Fund has no interest bearing financial instruments except for the cash at ING Nederland, which is subject to normal market related short-term interest rates. Therefore the Fund is not exposed to significant interest rate risks.

Notes to the financial statements

13. FINANCIAL INVESTMENTS AND ASSOCIATED RISKS *(CONTINUED)*

Market risk *(continued)*

Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk exposure arises from the Fund investing in financial instruments and entering into transactions which are denominated in currencies other than its functional currency. At 30 June 2013, all of the Fund's investments and transactions are traded in EUR. As the Fund's assets and liabilities are predominately denominated in the functional currency the Fund is not exposed to material currency risk.

Credit risk

Credit risk is the risk that counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. It arises from cash and cash equivalents and dividend receivable. The carrying values of financial assets (excluding any investments in equity instruments) best represent the maximum credit risk exposure at the reporting date and amounts to EUR 200,851,651.

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations arising from its financial liabilities. Exposure to liquidity risk arises because of the possibility that the Fund could be required to pay its liabilities or redeem its participations earlier than expected.

The Fund's listed securities are considered to be readily realisable as they are listed on recognised exchanges.

The Fund's other liabilities are short-term in nature.

Report on the financial statements

We were engaged to audit the accompanying financial statements for the year ended June 30, 2013 of Finles Global Opportunities Fund B.V., Utrecht, which comprise the balance sheet as at June 30 2013, the profit and loss account for the year then ended and the notes, comprising a summary of the accounting policies and other explanatory information.

Management's responsibility

Management is responsible for the preparation and fair presentation of these financial statements and for the preparation of the report of the fund manager, both in accordance with Part 9 of Book 2 of the Dutch Civil Code. Furthermore management is responsible for such internal control as it determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Dutch law, including the Dutch Standards on Auditing. This requires that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of

accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position Finles Global Opportunities Fund B.V. as at June 30, 2013 and of its result for the year then ended in accordance with Part 9 of Book 2 of the Dutch Civil Code.

Report on other legal and regulatory requirements

Pursuant to the legal requirement under Section 2:393 sub 5 at e and f of the Dutch Civil Code, we have no deficiencies to report as a result of our examination whether the report of the fund manager, to the extent we can assess, has been prepared in accordance with Part 9 of Book 2 of this Code, and whether the information as required under Section 2:392 sub 1 at b-h has been annexed.
